29 - 30 May
2018

**Register
now!**

Key Topics

Outstanding Know-How &
Sustainable Innovations

Enhanced Safety &
Operation Excellence

Decommissioning Experience &
Waste Management Solutions

With its 50 years history, the **Annual Meeting on Nuclear Technology (AMNT)** is one of the most recognized and best established international nuclear energy conferences in Europe with representatives from all around the world.

Why You Should Attend the AMNT

- ▶ Learn more about latest trends and developments by a comprehensive 2-day-programme on each key topic
- ▶ Hear from top international experts from industry, utilities and science as well as politics and administration
- ▶ Network with 700 leading experts and colleagues from 30 countries and over 200 organizations
- ▶ Showcase your organization, your services, products and technologies at the exhibition
- ▶ Explore business and technical opportunities

Don't miss this key event of the global nuclear energy community.

Programme Preview

Tuesday | May 29th 2018

09:00

Plenary Session

- ▶ Policy
- ▶ Economy
- ▶ Competence
- ▶ Communications
- ▶ Waste Management | E/D tsiD/E

Outstanding Know-how & Sustainable Innovations

- ▶ **FOCS** International Regulation | Radiation Protection: The Implementation of the EU Basic Safety Standards Directive 2013/59 and the Release of Radioactive Material from Regulatory Control | E
- ▶ **FOCS** Safety of Innovative Reactor Concepts | E
- ▶ **Young Scientists' Workshop** Part 1 | E

Enhanced Safety & Operation Excellence

- ▶ **FOCS** Radiation Protection | E
- ▶ **FOCS** International Operational Experience | E

Decommissioning Experience & Waste Management Solutions

- ▶ **FOCS** Experiences on Post-Operation and Decommissioning | D tsiE
- ▶ **FOCS** The Paradigm Shift in Nuclear Waste Management in Germany | D tsiE

- ▶ Outside the Box

Social Evening in the Exhibiton Area

23:00

Wednesday | May 30th 2018

09:00

Industrial Exhibition

Key Topics

Outstanding Know-how & Sustainable Innovations

- ▶ **TECS** Know-How, New Build and Innovations | E
- ▶ **TECS** Reactor Physics, Thermo and Fluid Dynamics | E
- ▶ **Young Scientists' Workshop** Part 2 | E

Enhanced Safety & Operation Excellence

- ▶ **TECS** Operation and Safety of Nuclear Installations | E

Decommissioning Experience & Waste Management Solutions

- ▶ **TECS** Decommissioning of Nuclear Installations | E/D tsiE
- ▶ **TECS** Radioactive Waste Management, Storage and Disposal | E/D tsiE

18:00

Programme Preview

FOCS = Focus Session
 TECS = Technical Session
 D = Contributions in German
 E = Contributions in English
 tsiE = Translated simultaneously in English
 tsiD/E = Translated simultaneously
 in German/English

August 2017. More information to follow.
